

Belgian Malts that Make Your Beer So Special

GALAXY

BREWING QUALITY

Galaxy is one of the most exciting new hop cultivars developed to date. When used as a late addition for flavour or aroma it contributes a distinctive clean citrus and passionfruit character which is more striking and intense the later the addition. Developed and grown exclusively in Australia, Galaxy is late maturing seedless cultivar with a striking flavour characteristic which can contribute artfully to many different beer styles. Typical Beer Styles: American pale, amber, IPA.

ORIGIN / HISTORY

Australian high alpha dual purpose triploid cultivar with a marked and unique hop aroma, bred in 1994 by Hop Products Australia by crossing a female tetraploid (J78) with a male derived from Perle.
