

*Belgian Malts that Make Your Beer So Special*

## SPECIFICATION

### CHÂTEAU CARA CLAIR® Crop year 2023

Parameter	Unit	Min	Max
Moisture	%		8,5
Extract (dry basis)	%	78	
Wort color	EBC(Lov.)		9 (3.94)
Total protein	%		11.5
pH			6.0

#### Features

The palest Belgian Caramel malt produced according to a special malting process.

#### Characteristics

Château Cara Clair is a type of Belgian caramel malt. Intensifies the beer's body and its smoothness, promotes head formation and retention. This malt also called Dextrin malt and is the most common body and foam enhancing natural agent that enhance head retention primarily thanks to their dextrans and other complex proteins. Creates soft biscuit notes in the beer aroma.

#### Usage

Pilsner Lager, alcohol-reduced beer, light beer, Bock beer. Up to 30% of the mix.

#### Storage and Shelf life

Malt should be stored in a clean, cool (< 22 °C), dry (< 35 RH %) and pest free environment. If these conditions are observed, we recommend using all whole kernel products within 24 months from the date of manufacture and all milled products within 3 months. Improperly stored malts can lose freshness and flavor.

#### Packaging

Bulk; Bulk in Liner Bag in Container; Bags (25kg, 50kg); Big Bags (400 - 1,400kg). All types of packaging – in 20' or 40' containers for export.

#### IMPORTANT

All our malts are 100% traceable from barley field through all stages of malting process up to the delivery applying and respecting Regulation EC/178/2002 of the European Council regarding traceability.

All our malts are produced using the traditional process of over 9 days, a solid warranty of high modification of the grain and real top quality of premium malts.

Neither of our malts contains any genetically modified organisms as defined by Regulation (EC) No 1829/2003 of the European Parliament and of the Council, which means that all our malts are GMO FREE guaranteed.

All our malts are manufactured in strict conformity with the internationally accepted requirements HACCP (Hazard Analyses of Critical Control Points) currently in force and the ISO 22000 Food Safety Management System.

All our malts conform to EU and International regulations regarding the maximum allowable residues of pesticides, herbicides, fungicides, insecticides, as well as traces of mycotoxins and nitrosamines.

All our malts are transported only by GMP-certified transporters.
