

Belgian Malts that Make Your Beer So Special

American IPA

Description

Typical American IPA. Golden coloured beer, light-moderate body, moderate-high alcohol level and highly hoppy. Hops is the most important ingredient in this style, bringing the high bitterness as well as the citrus and fruity aromas of American hops ("New world hops"). Despite being a strong and bitter beer, it is very refreshing and a nice pair for spicy foods.

*The bitterness depends on the alpha acid content of hops, boiling conditions and other parameters.

This recipe is provided by Castle Malting®. Please note that this recipe is just a guideline. Some modification might need to be done to meet different technologies, efficiencies and ingredients yield as grain dry extract and hop alpha acid percentage.
