

Specialty Malts that Make Your Beer So Special

ARIANA

BREWING QUALITY

In Ariana, you will pick up black currants, peaches, pears and tropical fruit notes. Depending on the beer type and dosage this hop can impart various aroma notes such as grapefruit, cassis, geranium, gooseberry, citrus and vanilla to beer. This breeding lines is very suitable for use in dry hopping, when it imparts its most intense fruity flavors.

ORIGIN / HISTORY

Ariana is a flavour variety developed in Institute for Crop Science and Plant Breeding Hop Research Center of Hüll in Germany. The variety was developed from Herkules x male wild hopgerm plasm.
